

Performance of Nature-based Hotels 2022

Nature-based hotels are located within 10 km proximity of a protected area and/or high biodiversity value area and/or area that plays a significant role in life cycle of IUCN Red List of Threatened Species

Location	Operational type	Operational Sites (Owned, leased, managed) in or adjacent to protected areas of high biodiversity	Size of operational site area in Hectare	About Biodiversity Protection Initiatives	Species affected	Extent of areas impacted	Duration of impacts	Reversibility or irreversibility of impacts from biodiversity protection initiatives	Third-party Partner	On-land / Below-water
Oman	Operational control	Al Baleed Resort Salalah by Anantara	14.00	Adjacent to 9,614,600 hectares of Arabian Sea. Supporting conservation initiatives of the Environment Society of Oman in protecting Arabian Sea humpback whale and other domestic species.	Arabian Sea Humpback Whale	Arabian Sea	1 year	Irreversible	Environment Society of Oman	Below-water
Oman	Operational control	Anantara Al Jabal Al Akhdar Resort	7.31	Adjacent to a 800-km long Hajar Mountains and Jabal Al Akhdar. Supporting Environment Society of Oman in conservation initiative to protect domestic bird species and their habitat.	Lappet Faced Vulture, Egyptian Vulture	Hajar Mountains ((Key Biodiversity Area), Jabal Al Akhdar	1 years	Slightly Reversible	Environment Society of Oman	On-land
Cambodia	Operational control	Anantara Angkor Resort	0.56	Supporting biodiversity conservation of the Cardamom Mountains where diverse wild flora and fauna reside and contribute to the rich biodiversity of Cambodia through Wildlife Alliance, a local conservation organization, in aiding Wildlife Rapid Rescue Team who patrol the Southern Cardamom Mountains to prevent land poaching, wildlife hunting, and maintaining the ecosystem.	Asian elephant, Clouded leopard, Asiatic wild dog	Botum Sakor National Park, Southern Cardamom (Key Biodiversity Area)	8 years	Slightly Reversible	Ministry of Environment, Wildlife Alliance	On-land
Mozambique	Operational control	Anantara Bazaruto Island Resort	292.00	Adjacent to 143,000 hectares of Bazaruto Archipelago National Park. Engaging local community around the national park in protecting the area and promoting harmony between local people and wildlife.	Dugong	Bazaruto Archipelago National Park	5 years	Irreversible	Bazaruto National Park	Below-water
Maldives	Operational control	Anantara Dhigu Resort & Spa	6.92	Operating within South Male Atoll. Implementing Holistic Approach to Reef Protection (HARP) to regenerate the coral around its island and nearby area that were affected by El Nino since 2014.	Coral reef	South Male Atoll	7 years	Scientific search: irreversible, Impacts: Slightly Reversible		Below-water
Thailand	Operational control	Anantara Golden Triangle Elephant Camp & Resort	131.52	Operating within 131 hectares of Economic zone of Royal Forestry Department. Promoting well-being and humane treatment of captive elephants, conserving wild elephants and their habitat within the national parks, and resolving human-elephant conflict issue.	Asian elephant	Economic zone of Royal Forestry Department, Khao Yai National Park, Salakphra Wildlife Sanctuary, Botum Sakor National Park	20 years	Scientific search: irreversible, Impacts: Slightly Reversible	Golden Triangle Asian Elephant Foundation, Freeland Foundation, Royal Forestry Department	On-land
Mauritius	Operational control	Anantara IKO Mauritius Resort & Villas	13.23	Adjacent to 353 hectares of Blue Bay Marine Park. Protecting and improving coastal ecosystem within the area of Blue Bay Marine Park.	Coral Reef, Green and Hawksbill Turtle	Blue Bay Marine Park	3 years	Slightly Reversible	Blue Bay Marine Park, REEF Conservation, Mauritius Wildlife Foundation	Below-water
Sri Lanka	Operational control	Anantara Kalutara Resort	5.32	Supporting Sri Lanka's Elephant Transit Home project Elephant Transit Home (ETH) that rescues injured elephants and takes care of baby elephants till they are old enough to be sent back to the 30,821-hectare area of Udawalawe National Park.	Asian elephant	Udawalawe National Park	5 years	Irreversible	Elephant Transit Home, Udawalawe	On-land

Location	Operational type	Operational Sites (Owned, leased, managed) in or adjacent to protected areas of high biodiversity	Size of operational site area in Hectare	About Biodiversity Protection Initiatives	Species affected	Extent of areas impacted	Duration of impacts	Reversibility or irreversibility of impacts from biodiversity protection initiatives	Third-party Partner	On-land / Below-water
Maldives	Operational control	Anantara Kihavah Villas	12.20	Adjacent to 3,916 hectares UN Bio-sphere Reserve, Baa Atoll. Implementing Coral Adopton Programme that engages guests in adopting coral in the nursery that will be planted in its housereef and surrounding area to restore coral reefs there were bleached during El Nino event.	Coral reef	Baa Atoll (UN Biosphere Reserve)	7 years	Scientific search: irreversible, Impacts: Slightly Reversible	University of Queensland	Below-water
Thailand	Operational control	Anantara Layan Phuket Resort	25.19	Adjacent to Layan Beach and approximately 10km away from the 9,000-hectare Sirinart National Park. Supporting the Mai Khao Marine Turtle Foundation (MKMTF), a foundation founded to protecting the marine and coastal environment and eco systems for the wellbeing of marine turtles that habit in the Sirinart National Marine Park and the surrounding areas.	Marine turtle	Sirinart National Park	9 years	Irreversible	Mai Khao Marine Turtle Foundation, Phuket Marine Biological Centre, Royal Thai Navy	Below-water
Thailand	Operational control	Anantara Mai Khao Phuket Villas	6.88	Adjacent to 9,000 hectares Sirinart National Park. Supporting conservation of endangered marine turtles and their habitat through the Mai Khao Marine Turtle Foundation (MKMTF), a foundation founded to protecting the marine and coastal environment and eco systems for the wellbeing of marine turtles that habit in the Sirinart National Marine Park and the surrounding areas, in working together to take care of nesting beach and protect the eggs until they are hatched and return to the sea.	Marine turtle	Sirinart National Park	14 years	Irreversible	Mai Khao Marine Turtle Foundation, Phuket Marine Biological Centre, Royal Thai Navy	Below-water
Seychelles	Operational control	Anantara Maia Seychelles Villas	10.25	Located on the Anse Louis beach, a nesting beach for Hawksbill and Green turtles. Supporting the Marine Conservation Society of Seychelles (MCSS), a non-governmental organization, in conservation and education programme of marine turtles and their habitat.	Marine turtle	Anse Louis	1 year	Reversible	Marine Conservation Society of Seychelles (MCSS)	
Sri Lanka	Operational control	Anantara Peace Haven Tangalle Resort	11.33	Located on the 120km coastline of Sri Lanka's southern coast. Partnering with the IUCN (International Union for the Conservation of Nature) and the Department of Wildlife to conduct a research project on marine turtles and their conservation that produced a scientific report with steps needed to protect these endangered animals that frequent Sri Lanka's beaches.	Marine turtle	Coast from Tangalle to Yala National Park (Key Biodiversity Area)	6 years	Slightly Reversible	International Union for Conservation of Nature (IUCN)	Below-water
Vietnam	Operational control	Anantara Quy Nhon Villas	6.02	Located on the coast of South China Sea. Supporting conservation of marine turtles and their habitat through IUCN (International Union for the Conservation of Nature) and helped in patrolling beaches to safeguard the nesting grounds of turtles	Marine Turtle	South China Sea	1 year	Slightly Reversible	International Union for Conservation of Nature (IUCN), Department of Fishery	Below-water

Location	Operational type	Operational Sites (Owned, leased, managed) in or adjacent to protected areas of high biodiversity	Size of operational site area in Hectare	About Biodiversity Protection Initiatives	Species affected	Extent of areas impacted	Duration of impacts	Reversibility or irreversibility of impacts from biodiversity protection initiatives	Third-party Partner	On-land / Below-water
Thailand	Operational control	Anantara Rasananda Villa Resort & Spa Koh Phangan	1.76	Located on Phangan Island in the southeast of the Gulf of Thailand. Protecting ecosystem of the island by implementing long-term maintenance of beach ecosystem and promoting conservation of marine species.	Marine Environment	Gulf of Thailand	2 years	Slightly Reversible	Clean All World	Below-water
UAE	Operational control	Anantara Sir Bani Yas Island Al Sahel Villa Resort	26.26	Adjacent to 8,700 hectares of Sir Bani Yas Wildlife Park, a protected wildlife sanctuary off the coast of Abu Dhabi. Supporting the Environment Agency Abu Dhabi to breed Arabian oryx and then transfer them to repopulate in the wild.	Arabian oryx	Sir Bani Yas Wildlife Park (Key Biodiversity Area)	9 years	Irreversible	Environment Agency Abu Dhabi	On-land
UAE	Operational control	Anantara Sir Bani Yas Island Al Yamm Villa Resort	25.32	Adjacent to 8,700 hectares of Sir Bani Yas Wildlife Park, a protected wildlife sanctuary off the coast of Abu Dhabi. Supporting the Environment Agency Abu Dhabi to breed Arabian oryx and then transfer them to repopulate in the wild.	Arabian oryx	Sir Bani Yas Wildlife Park (Key Biodiversity Area)	9 years	Irreversible	Environment Agency Abu Dhabi	On-land
Maldives	Operational control	Anantara Veli Resort & Spa	4.30	Operating within South Male Atoll. Implementing Holistic Approach to Reef Protection (HARP) to regenerate the coral that were affected by El Nino since 2014.	Coral reef	South Male Atoll	7 years	Scientific search: irreversible, Impacts: Slightly Reversible		Below-water
China	Operational control	Anantara Xishuangbanna Resort	10.47	Supporting conservation efforts of Xishuangbanna Tropical Botanical Gardens that focus on the protection of wild elephants, prevent human-elephant conflict issue, and conserve domestic flora in the area.	Asian elephant, domestic flora species	Xishuangbanna Tropical Botanical Gardens	2 years	Irreversible	Xishuangbanna Tropical Botanical Gardens	On-land
Sri Lanka	Operational control	AVANI Kalutara Resort	3.47	Supporting Sri Lanka's Elephant Transit Home project Elephant Transit Home (ETH) that rescues injured elephants and takes care of baby elephants till they are old enough to be sent back to the 30,821-hectare area of Udawalawe National Park.	Asian elephant	Udawalawe National Park	4 years	Irreversible	Elephant Transit Home, Udawalwe	On-land
Vietnam	Operational control	AVANI Quy Nhon Resort & Spa	6.02	Located on the coast of South China Sea. Supporting conservation of marine turtles and their habitat through IUCN (International Union for the Conservation of Nature) and helped in patrolling beaches to safeguard the nesting grounds of turtles	Marine Turtle	South China Sea	1 year	Slightly Reversible	International Union for Conservation of Nature (IUCN), Department of Fishery	Below-water
Zambia	Operational control	AVANI Victoria Falls Resort	6.80	Adjacent to 2,340 hectares Mosi-oa-Tunya National Park. Supporting Wildlife Conservation Associations in Livingstone to ensure local wildlife and their habitats are protected. Promoting wildlife-friendly food production that helps prevent human-wildlife conflict in the nearby community	African elephant, Rhinoceros	Mosi-oa-Tunya National Park (Key Biodiversity Area)	5 years	Irreversible	Zambia Wildlife Authority	On-land
Thailand	Operational control	AVANI+ Koh Lanta Krabi	2.26	Supporting conservation of mangrove forest within the Green Lanta State Park to ensure healthy ecosystem is preserved.	Mangrove Forest	Green Lanta State Park	1 year	Slightly Reversible	Thung Yee Peng Community Tourism	Below-water

Location	Operational type	Operational Sites (Owned, leased, managed) in or adjacent to protected areas of high biodiversity	Size of operational site area in Hectare	About Biodiversity Protection Initiatives	Species affected	Extent of areas impacted	Duration of impacts	Reversibility or irreversibility of impacts from biodiversity protection initiatives	Third-party Partner	On-land / Below-water
Qatar	Operational control	Banana Island Resort Doha by Anantara	6.59	Implementing Mayfara Artificial Reef Project to preserve Qatar's marine biodiversity, including planting artificial reef modules at several marine locations. Coordinating with Qatar Energy and Ministry of Environment and Climate Change in implementing Mayfara Artificial Reef Project, a coral management programme to preserve Qatar's marine biodiversity. The program involved relocation of live corals from nearshore pipelines to offshore protected area.	Coral reef	Arabian Gulf	2 years	Irreversible	Qatar Energy and Ministry of Environment and Climate Change	Below-water
UAE	Operational control	Desert Islands Resort and Spa by Anantara	11.06	Adjacent to 8,700 hectares of Sir Bani Yas Wildlife Park, a protected wildlife sanctuary off the coast of Abu Dhabi. Supporting the Environment Agency Abu Dhabi to breed Arabian oryx and then transfer them to repopulate in the wild.	Arabian oryx	Sir Bani Yas Wildlife Park (Key Biodiversity Area)	9 years	Irreversible	Environment Agency Abu Dhabi	On-land
UAE	Operational control	Eastern Mangroves Hotel & Spa by Anantara	4.10	Adjacent to 1,900 hectares of Eastern Mangrove National Park. Implementing regular mangrove cleaning activity to sustain mangrove ecosystem of the area.	Mangrove Ecosystem	Eastern Mangrove National Park	2 years	Irreversible	Environment Agency Abu Dhabi	Both
Maldives	Operational control	Naladhu Maldives	2.95	Operating within South Male Atoll. Implementing Holistic Approach to Reef Protection (HARP) to regenerate the coral around its island and nearby area that were affected by El Nino since 2014.	Coral reef	South Male Atoll	7 years	Scientific search: irreversible, Impacts: Slightly Reversible		Below-water
Maldives	Operational control	Niyama Private Island Maldives	22.80	Operating within Dhaalu Atoll. Implementing long-term conservation program to regenerate coral reef through Coral Adoption Programme that engages guests in adopting coral in the nursery that will be planted around the islands and nearby area. Offering awareness activities for guests to learn about importance of conservation and environmental protection.	Coral reef	Dhaalu Atoll	4 years	Irreversible		Below-water
UAE	Operational control	Qasr Al Sarab Desert Resort by Anantara	11.73	Adjacent to 30,800 hectares of Qasr Al Sarab Protected Area. Supporting desert wildlife conservation program to reintroduce Arabian Oryx and Gazelle to the nature.	Arabian Oryx, Gazelle	Qasr Al Sarab Protected Area	11 years	Irreversible		Both
Zambia	Operational control	Royal Livingstone Resort	10.20	Adjacent to 2,340 hectares Mosi-oa-Tunya National Park. Protecting wildlife and their habitat and promoting wildlife-friendly food production that helps prevent human-wildlife conflict in the nearby community.	African elephant, Rhinoceros	Mosi-oa-Tunya National Park (Key Biodiversity Area)	5 years	Irreversible	Zambia Wildlife Authority	On-land
Brazil	Operational control	Tivoli Ecoresort Praia do Forte	24.11	Located next to South Atlantic Ocean. Supporting conservation program to protect marine turtles and Humpback whales which are endangered species habitating in the area.	Marine turtle, Humpback Whale	Atlantic Forest South-East Reserves	6 years	Slightly Reversible	Projeto Tamar	Below-water
Vietnam	Operational control	Anantara Mui Ne Resort & Spa	24.54	<i>In progress of developing initiative</i>						

Location	Operational type	Operational Sites (Owned, leased, managed) in or adjacent to protected areas of high biodiversity	Size of operational site area in Hectare	About Biodiversity Protection Initiatives	Species affected	Extent of areas impacted	Duration of impacts	Reversibility or irreversibility of impacts from biodiversity protection initiatives	Third-party Partner	On-land / Below-water
Tunisia	Operational control	Anantara Sahara Tozeur Resorts & Villas	2.70	<i>In progress of developing initiative</i>						
Mozambique	Operational control	AVANI Pemba Beach Hotel & Spa	18.00	<i>In progress of developing initiative</i>						
Kenya	Non-operational control	AfroChic Diani Beach	0.38	Adjacent to 20,000 hectares of Diani Chale Marine National Reserve. Supporting a local turtle conservation organization -Diani Turtle Watch - in setting up a hatchery site at the hotel beach front, whereby they partner with local communities who bring turtle eggs to the hatchery site for conservation.	Marine turtle	Diani Chale Marine National Reserve	4 years	Reversible		Below-water
Kenya	Non-operational control	Elephant Pepper Camp Masai Mara	272.80	Operating within 30,000 hectares Mara North Conservancy. Supporting conservation work of Land & Life Foundation that promotes awareness among young generations, engages local community in conservation efforts, and runs Human-Elephant Conflict Mitigation Program.	African elephant, Rhinoceros, Lion, Cheetah	Mara North Conservancy	7 years	Slightly Reversible	Mara North Conservancy, Land & Life Foundation	On-land
Kenya	Non-operational control	Elsa's Kopje Meru	12.10	Operating within 87,000 hectares of Meru National Park. Supporting conservation work of Land & Life Foundation that promotes awareness among young generations, engages local community in conservation efforts, and supports wildlife management to conserve elephants, zebra, lion, and rhino.	African elephant, Rhinoceros, Lion, Cheetah	Meru National Park (Key Biodiversity Area)	7 years	Irreversible	Meru National Park, Land & Life Foundation	On-land
Thailand	Non-operational control	Four Seasons Chiang Mai	12.95	Located next to Ping River in the north of Thailand. Supporting conservation of elephants through the work of Golden Triangle Asian Elephant Foundation (GTAEF) that can benefit domestic elephants at the Foundation and wild elephants at national parks in Thailand.	Asian elephant	Khao Yai National Park, Salakphra Wildlife Sanctuary, Botum Sakor National Park	1 year	Slightly Reversible	Golden Triangle Asian Elephant Foundation, Freeland Foundation, Royal Forestry Department	On-land
Thailand	Non-operational control	Four Seasons Koh Samui	19.20	Located on the Samui island in the Gulf of Thailand. Supporting local biodiversity conservation program in partnership with Thailand's Department of Marine and Coastal Resources, including the Coral Conservation Project led by resort's in-house marine biologist, focused on conserving the reef that skirts the resort through coral rehabilitation and reintroducing coral pieces into the fringe reef.	Giant clam, Coral reef	House reef	7 years	Reversible	Department of Marine and Coastal Resources	Below-water
Thailand	Non-operational control	Four Seasons Tented Camp Golden Triangle	<i>Included in area of Anantara Golden Triangle</i>	Operating within 131 hectares of Economic zone of Royal Forestry Department. Promoting well-being and humane treatment of captive elephants, conserving wild elephants and their habitat within the national parks, and resolving human-elephant conflict issue.	Asian elephant	Economic zone of Royal Forestry Department, Khao Yai National Park, Salakphra Wildlife Sanctuary, Botum Sakor National Park	17 years	Slightly Reversible	Golden Triangle Asian Elephant Foundation, Freeland Foundation, Royal Forestry Department	On-land

Location	Operational type	Operational Sites (Owned, leased, managed) in or adjacent to protected areas of high biodiversity	Size of operational site area in Hectare	About Biodiversity Protection Initiatives	Species affected	Extent of areas impacted	Duration of impacts	Reversibility or irreversibility of impacts from biodiversity protection initiatives	Third-party Partner	On-land / Below-water
Thailand	Non-operational control	JW Marriott Phuket	10.93	Adjacent to 9,000 hectares Sirinart National Park. Supporting conservation of endangered marine turtles and their habitat through the Mai Khao Marine Turtle Foundation (MKMTF), a foundation founded to protecting the marine and coastal environment and eco systems for the wellbeing of marine turtles that habit in the Sirinart National Marine Park and the surrounding areas, in working together to take care of nesting beach and protect the eggs until they are hatched and return to the sea.	Marine turtle	Sirinart National Park	21 years	Irreversible	Mai Khao Marine Turtle Foundation, Phuket Marine Biological Centre, Royal Thai Navy	Below-water
Kenya	Non-operational control	Kifaru House	7.07	Operating within 25,000 hectares of Lewa Conservancy. Supporting Lewa Conservancy and The Northern Rangelands Trust that deploy a dedicated anti-poaching team to protect rhino and other endangered species residing in the area. Supporting Land & Life Foundation in promoting conservation awareness among young generations and engaging local community in conservation efforts.	African elephant, Rhinoceros, Lion, Cheetah	Lewa Wildlife Conservancy (UNESCO World Heritage site)	4 years	Slightly Reversible	Lewa Wildlife Conservancy, Land & Life Foundation	On-land
Tanzania	Non-operational control	Kilindi Zanzibar	13.80	Located next to the Indian Ocean. Working with local organizations and community in conserving marine ecosystem with focus on marine turtles.	Marine turtle	Indian Ocean	4 years	Reversible		Below-water
Kenya	Non-operational control	Lewa Safari Camp	41.20	Operating within 25,000 hectares of Lewa Conservancy. Supporting Lewa Conservancy and The Northern Rangelands Trust that deploy a dedicated anti-poaching team to protect rhino and other endangered species residing in the area. Supporting Land & Life Foundation in promoting conservation awareness among young generations and engaging local community in conservation efforts.	African elephant, Rhinoceros, Lion, Cheetah	Lewa Wildlife Conservancy (UNESCO World Heritage site)	4 years	Slightly Reversible	Lewa Wildlife Conservancy, Land & Life Foundation	On-land
Kenya	Non-operational control	Loisaba Star Beds	45.70	Operating within 22,262 hectares of Loisaba Conservancy. Supporting Land & Life Foundation in promoting conservation awareness among young generations and engaging local community in conservation efforts. Contributing to Leopard Research Project through setting up 38 cameras strategically in Loisaba and Lorok ecosystems for monitoring. Assisting anti-poaching team in patrolling the area.	Melanistic Leopard, Reticulated Giraffe, Lion, African Elephant, Grevy's Zebra	Loisaba Conservancy	4 Years	Slightly Reversible	Loisaba Conservancy, Land & Life Foundation, San Diego Zoo Leopard	On-land

Location	Operational type	Operational Sites (Owned, leased, managed) in or adjacent to protected areas of high biodiversity	Size of operational site area in Hectare	About Biodiversity Protection Initiatives	Species affected	Extent of areas impacted	Duration of impacts	Reversibility or irreversibility of impacts from biodiversity protection initiatives	Third-party Partner	On-land / Below-water
Kenya	Non-operational control	Loisaba Tented Camp	<i>Included with area of Loisaba Star Beds</i>	Operating within 22,262 hectares of Loisaba Conservancy. Supporting Land & Life Foundation in promoting conservation awareness among young generations and engaging local community in conservation efforts and worked towards assisting anti-poaching team in patrolling the area. Supporting San Diego Zoo Leopard Research Programme.	Melanistic Leopard, Reticulated Giraffe, Lion, African Elephant, Grevy's Zebra	Loisaba Conservancy	4 Years	Slightly Reversible	Loisaba Conservancy, Land & Life Foundation, San Diego Zoo Leopard	On-land
Kenya	Non-operational control	Loisaba Lodo Camp	<i>Included with area of Loisaba Star Beds</i>	Operating within 22,262 hectares of Loisaba Conservancy. Contributing revenue generated from conservancy fees and bed nights at Loisaba to conservation its private wilderness area, in addition to supporting community orientated health, education and enterprise programmes. Supporting conservation program of leopard, giraffe, and elephant programmes.	Melanistic Leopard, Reticulated Giraffe, Lion, African Elephant, Grevy's Zebra	Loisaba Conservancy	3 years	Slightly Reversible	Loisaba Conservancy, Land & Life Foundation	On-land
Kenya	Non-operational control	Sand River Masai Mara	8.10	Operating within 151,000 hectares of Masai Mara National Reserve. Supporting Land & Life Foundation in promoting conservation awareness among young generations and engaging local community in conservation efforts. Supporting the National Reserve rangers in wildlife monitoring and report on any incidences to the reserve management.	African elephant, Rhinoceros, Lion, Cheetah	Masai Mara National Reserve (Key Biodiversity Area)	7 years	Irreversible	Masai Mara Wildlife Reserve, Land & Life Foundation	On-land
Tanzania	Non-operational control	Serengeti Migration Camp	37.07	Operating within 1.5 million hectares of Serengeti National Park. Supporting Land & Life Foundation in promoting conservation awareness among young generations and engaging local community in conservation efforts.	African elephant, Rhinoceros, Lion, Cheetah	Serengeti National Park (Key Biodiversity Area)	7 years	Irreversible	Serengeti National Park, Land & Life Foundation	On-land
Tanzania	Non-operational control	Serengeti Pioneer Camp	<i>Included with area of Serengeti Pioneer Camp</i>	Operating within 1.5 million hectares of Serengeti National Park. Supporting Land & Life Foundation in promoting conservation awareness among young generations and engaging local community in conservation efforts.	African elephant, Rhinoceros, Lion, Cheetah	Serengeti National Park (Key Biodiversity Area)	7 years	Irreversible	Serengeti National Park, Land & Life Foundation	On-land
Tanzania	Non-operational control	Tarangire Treetops	40.47	Operating area within 31,500 hectares of Randilen Wildlife Management Area, adjacent to 285,000 hectares of Tarangire National Park, Tanzania. Supporting Land & Life Foundation in promoting conservation awareness among young generations and engaging local community in conservation efforts.	African elephant, Lion, Cheetah	Randilen Wildlife Management Area (WMA)	7 years	Irreversible	Randilen Wildlife Management Area, Honeyguide Foundation	On-land
Tanzania	Non-operational control	The Manor at Ngorongoro	42.01	Adjacent to of 829,200 hectares of Ngorongoro Conservation Area. Supporting Land & Life Foundation in promoting conservation awareness among young generations and engaging local community in conservation efforts.	African elephant	Ngorongoro Conservation Area (Key Biodiversity Area)	7 years	Irreversible	Ngorongoro Conservation Area	On-land

Location	Operational type	Operational Sites (Owned, leased, managed) in or adjacent to protected areas of high biodiversity	Size of operational site area in Hectare	About Biodiversity Protection Initiatives	Species affected	Extent of areas impacted	Duration of impacts	Reversibility or irreversibility of impacts from biodiversity protection initiatives	Third-party Partner	On-land / Below-water
Kenya	Non-operational control	Tortilis Camp Amboseli	16.40	Adjacent to 39,200 hectares Amboseli National Park. Contributing to conservation through the payment of conservancy management fees and supported the Land & Life Foundation in promoting conservation awareness among young generations and engaging local community in conservation efforts. Paying fixed rent to local Maasai landowners to preserve the Kitirua Conservancy, a 12,000 hectare wildlife corridor bridging Amboseli and Tanzania.	African elephant, Lion, Cheetah	Amboseli National Park (Key Biodiversity Area)	7 years	Slightly Reversible	Amboseli National Park, Kitirua Wildlife Conservancy, Land & Life Foundation	On-land
Total area of own operational sites identified as nature-based			768.15							
Total area of non operational sites identified as nature-based			580.17							
Total area of all sites identified as nature-based			1,334.31							
Total area of nature-based hotels with conservation initiatives			1,303.08
